

## Removing the Replaceable Stylus

Hold the cartridge steady with one hand, grasp the stylus with the other hand, push down in the direction of arrow (1) and then gently pull the stylus off in the direction of arrow (2).

## Mounting the Replaceable Stylus

Hold the cartridge steady with one hand, grasp the stylus with the other hand, point the hook part at the back of the stylus in the direction of arrow (1) and insert it fully into the long opening on the underside of the cartridge to the rearmost position, then push up in the direction of arrow (2) until it clicks into position.
